	• Oasis Roundabout- if the roundabout goes • We really enjoy the current roundabout • Love the metal slide down the slope it feels safer for the little ones	
Commentator B	• Pile of rocks fundamental • Large and Small swing	
Commentator C	• Shark Springer – Keep seesaw • Rota Net- or keep roundabout • Rota Post – or keep metal climbing frame • Oasis Roundabout – keep roundabout • Multi Activity Centre – this seems to double up on equipment staying. • Keep Metal Climbing frame please • Keep Roundabout please • Keep Seesaw • With Swings try for a pair of flat next to each other • Astroturf pitch • Worth considering parking access- consider remaining grass verge outside of fence to allow more cars to park

Commentator D	• Fireman's Pole	
Commentator E	• A very well thought out proposal that caters for all children abilities.	
Commentator F	• Trampoline in the ground	
Commentator G	• Park equipment such as a bucket swing, accessible roundabout, and inground trampoline would enable children with disabilities to access the same play opportunities as their peers.
