

Start Conversations. Encourage Screening. Save Lives.

**Become a Community Cancer Champion
and receive FREE training and support.**

What Is a Cancer Champion?

A Cancer Champion is someone who cares about their community. You don't need to be a health expert, just happy to have conversations about cancer. We give you FREE, simple training to help you feel confident.

What Do Cancer Champions Do?

- Talk to people about staying healthy and noticing early signs
- Share easy, friendly information about cancer screening
- Encourage people to speak to their GP if something doesn't feel right

What's Involved?

- Join local events, groups, or casual chats to spread awareness
- You help in ways that feel comfortable for you, even small conversations make a big difference.

Every Conversation Counts.

Cancer screening saves lives, but many people don't take up their invitation. By talking about cancer openly and sharing trusted information, you can help people make informed choices about their health.

*Help your
community
stay healthy!*
